H155 Sanitiser Station

A range of steel cabinets and posts to deliver sanitisation where you need it.

Standard Features

- Heavy Duty Sanitiser Station ideal for retail and commercial environments where staff and customers need ready access to cleaning products.
- Suitable for indoor and outdoor use.
- Constructed entirely from 2.0mm and 1.5mm galvanised steel.
- Finished with a durable powder coating, available in any standard RAL colour of your choice.
- Dispensers and waste bin can be included if required.
- Supplied with single shelf, fully height adjustable.
- Door with integral pull profile. Hinged with full height stainless steel hinge.
- Magnetic door catches and lock provided as standard.
- Mounted on heavy duty lockable castors.

Options

- Optional sturdy stainless steel side pull handles allow for easy manoeuvring and provide a means of hanging accessories such as spray cleaners.
- All dimensions can be changed to suit your requirements.
- Anti-microbial powder coating option available for enhanced hygiene.
- Available to suit all types and configurations of dispensers including countertop and tank-fed.
- Fully customisable with signage and corporate graphics.
- Available with height adjustable feet for static installations
- Padlockable anti-theft ground anchor.
- Single door can be hinged left or right. Also available with double doors.
